

Young Designers Program

WHAT IS IT?

YDP is our unconventional approach to a conventional problem: organization onboarding. It is **invite-only**, so if you don't have an invite, find a way to get one. The program is designed to help prospective members learn what InDe is about, while integrating them into our community. The program is conducted **at your pace**, but you don't get the benefits of full membership until you've completed the program.

WHAT ARE THE MEMBER BENEFITS?

As members, you'll go places you've never heard of, do things you never thought you'd do, and find people you never thought existed. In addition to **experiential resources**, our members have access to an **extensive collection of curated technical resources** and **indulgence related resources which include café, restaurant, places, and reading lists**.

We have a **wonderfully cohesive and collaborative workspace** for creatives—complete with loose leaf tea and cappuccattés.

HOW DO I JOIN THE PROGRAM?

Present your invitation to an exec member at the specified location.

WHAT HAPPENS WHEN I GRADUATE?

You get a shitty certificate with the exec teams signatures. Joking, relax. You'll get inducted InDe style.
