

# Young Designers Program

## WHAT IS IT?

YDP is our unconventional approach to a conventional problem: organization onboarding. It is **achievement-based**, so if you complete it, then you're in. If not, you're not. There is **no time constraint**, so if you finish everything in a day, you're in.

## WHAT ARE THE REQUIREMENT?

- 1.) grab breakfast, lunch, or dinner with all of the InDe members (including the executive team). In the YDP google drive, there will be document for you that has everyone in the club on the list. You are required to write one cool thing you talked about next to each person's name.
- 2.) work on a project with at least one of the members, and see that to completion. This project can be any medium and of anything you wish. Upon completion, you will share it with all of us in the google drive folder for member projects.
- 3.) creating something that you feel expresses you in some way. Again, any medium. Share it the same way you did in #2.
- 4.) creating something that analyzes and suggests a better way to do an every day activity like sleeping, pooping, or drinking coffee. The purpose is to think about something really common at a miniscule level. In doing so, we hope that you'll find ways in which it sucks and can use your brain to come up with alternative solutions to the problem.
- 5.) explore 1 new type of expression. If you've never tried poetry but

have thought about it, try it now! Maybe you've wanted to try salsa dancing? Do it! Share what you did in the appropriate google drive folder.

## **HOW DO I JOIN THE PROGRAM?**

Send Aaron a Text at (925) 876-0497, and he'll brief you on everything.

## **WHAT HAPPENS WHEN I GRADUATE?**

You get a shitty certificate with the exec teams signatures. Joking, relax. You'll get inducted InDe style.
